1	This isn't an actual nameplate drwg so assuming CSA marking and IEEE841/NEMA MG-1 nameplate info will be included without further review. As for nameplate data, please ensure that the motor tag 18-P-1812M will stamped on nameplate or provided on separate SS tag attached to motor.	The CSA and NEMA marks and logos will come physically on the main plate, this drawing is an auxiliary plate. I also confirm that the tags are considered according to the initial requirement.	Closed	Noted
2	IP56 MACCUSTOMMOTOR MAX CORR KVAR12 NEMA NOM/CSA QUOTI LR kVA code?	This is the main nameplate and no additional information can be added, the kVA can be found in the data sheets, this information is not placed on the nameplates.	Closed	Noted
